

U.Select (Formerly Course Applicability System -CAS)

U.Select is an online advising system that assists students and faculty advisors in planning for transfer. The Kentucky portion of U.Select is part of a nation-wide network supported by U.Select. Currently, the four Kentucky institutions participating include **Eastern Kentucky University, Morehead State University, Murray State University, University of Kentucky and Western Kentucky University**. This is really the best transfer guide option for these institutions. The U.Select system allows students to manually enter their coursework and grades into a password-protected account which can be updated as needed. From there, students can indicate which baccalaureate institution and major they want to transfer into. The system then compiles a degree audit on the coursework, producing a report indicating which requirements are met and which are left to be taken. Since the student's coursework is saved in their account, they can request numerous degree audits with a click of the mouse. *Use this quick reference guide to navigate the U.Select website.*

Creating a member account

- Access U.Select at www.transfer.org
- Click *Create Account* and follow the instructions

To look up a course equivalency

- Click the *Equivalencies by School*
- Select the institution to which credit will be transferred
- Select the institutions from which the credit will be transferred
- Click *create guides*

To see how courses transfer and apply to the desired program of study

- Select *My Courses*
- Add courses
- Save courses
- Click the **Create Transfer Guide** button and follow the on-line instructions

Requesting Program-specific Transfer Guide

- Click *create a plan*
- Select your transfer school
- Select your degree program
- Request a plan with equivalencies
- Select the school you are transferring from
